above mentioned material in the experimental conditions of the Technical Data Sheet conform with the requirements of the:

- German Regulation : BfR (BGVV) Chapter XVA : Silicones
- American Regulation : FDA / Code of Federal Regulation 21 / 177-2600
- French Regulation : Journal Officiel - Brochure 1227
- (EC) 1935/2004 Regulation European Council Resolution AP 2004(5) - Silicones

It is therefore the user responsibility to ensure that a suitable process is used to produce materials and articles that conform in every aspect to the above mentioned regulation. Excluded are products with the addition technical quality.

In addition, the final packager must ascertain that the packaging material and the food to be packed are mutually compatible and involve no modification of the organoleptic properties thereof.

Best Regards,

J. Lindemann GmbH
